

REMARKS

Examiner Le is thanked for the thorough search and examination of the subject patent application. Claims 1-80 and 84-86 have been canceled, Claims 81 and 83 have been amended, and new Claims 87-95 have been added. No new matter has been added.

A preliminary amendment canceling claims 1-80 and 84-86, received by the PTO on 25 January 2004, according to a return postcard, apparently has been lost. Therefore, these claims are hereby canceled. The cancellation of these claims is believed to overcome the two double patenting rejections.

Examiner Le has noted that claims 81-83 would be allowable if rewritten in independent form. However, these claims are in independent form. Claim 81 is amended to correct a typographical error and Claim 83 is amended to claim a first voltage and an opposite second voltage. New claims 87-95 provide further details about independent claims 81-83 as disclosed in the Specification.

It is requested that should Examiner Le not find that the Claims are Allowable that he call the undersigned at 765 4530866 to overcome any problems preventing allowance.

Respectfully submitted,

Rosemary L. S. Pike. Reg # 39,332
